Introduction

Wetherby Town Council is committed to provide a level of training for both its Members and staff, to enable them to undertake their respective roles for the betterment of not only the Council and the community it serves, but also the individual's personal development.

The Council will allocate a training budget to cover the provision of training activities, attendance at conferences and training publications for Members and staff.

Training

Training is defined as:

“A planned process to develop the abilities of the individual and to satisfy the current and future needs of the organisation.”

Learning can be categorised into the following:

Intuitive Learning which happens by chance and we may not be conscious of it.

Incidental Learning by reflecting on particular events of activities.

Retrospective A systematic approach to reflecting on activities and identifying what we learned from them.

Proactive Planning to learn from an activity, reflecting on it and planning to use what we learned e.g. organised training sessions.

It is anticipated that Members / staff's learning will reflect many of the above.

Training Aims

The Council's training aims are:

- To improve the understanding of its Members of their role as a local councillor, the powers available to the Council and how best to utilise the resources available to the Council for the betterment of the residents it serves.

- To provide the necessary training to its staff to ensure that they are able to safely and competently undertake their respective roles.
- To ensure an acceptable level of succession planning in order to:
 - a) Ensure the Council can operate effectively following local elections and potential changes to the Council membership.
 - b) Ensure the Council can continue to operate during times where staff may be unavailable (e.g. holidays, sickness, staff turnover etc).
- To assist the Council in obtaining Quality Parish Status.

Training Records

A record of training attended by all Members and staff will be kept by the Clerk.
