

WETHERBY TOWN COUNCIL

PUBLICATION SCHEME

Freedom of Information Act

A new Model Publication Scheme, which was approved by the Information Commissioner's Office, was adopted by Wetherby Town Council on 12th January 2009. The scheme, and guide to published information, has been updated in January 2018.

This publication scheme commits the Council to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by us. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

The scheme commits the Town Council:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the Council and falls within the categories below.
- To specify the information which is held by the Council and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the Council makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the Council that has been requested, and any updated versions it holds, unless the Council is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the Council is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19.

The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.

Classes of Information

There are 7 different categories in the scheme, covering the information concerning the normal business activities of the Council and how it will be provided to you:

- Who we are and what we do - organisational information, locations and contacts, constitutional and legal governance.
- What we spend and how we spend it - financial information relating to projected and actual income and expenditure, tendering, procurement and contracts.
- What our priorities are and how we are doing - strategy and performance information, plans, assessments, inspections and reviews.
- How we make decisions - policy proposals and decisions. Decision making processes, internal criteria and procedures, consultations.
- Our policies and procedures - current written protocols for delivering our functions and responsibilities.
- Lists and registers - information held in registers required by law and other lists and registers relating to the functions of the Council.
- The services we offer - advice and guidance, booklets and leaflets, transactions and media releases. A description of the services offered.

The classes of information will *not* generally include:

- Information the disclosure of which is prevented by law, or exempt under the Freedom of Information Act, or is otherwise properly considered to be protected from disclosure.
- Information in draft form.
- Information that is no longer readily available as it is contained in files that have been placed in archive storage, or is difficult to access for similar reasons.

How will information published under this scheme be made available?

A list of the information which is available is set out in a document called the 'Guide to Proactively Published Information'. A copy of this guide is given below.

If you would like to request a copy of the guide to proactively published information, or request copies of any of the information which is available to the public, please contact the Clerk to the Town Council whose details are given below.

Where a request for information is received we must send you a response within 20 working days. That response must either be the provision of the information or a refusal notice drawn up in accordance with the provisions of the legislation.

Mrs Iona Taylor, Town Clerk
The Town Hall, Market Place, Wetherby, LS22 6NE
admin@wetherby.co.uk

Where practical the Town Council will endeavour to publish as much information as possible made available through this scheme on its website (www.wetherby.co.uk).

Where it is impracticable to make information available on our website or if you do not wish to access the information by the website, we have indicated how information can be obtained, and how we will provide it by other means.

In exceptional circumstances (e.g. our register of burials) some information may be available only by viewing in person. Where this manner is specified, contact details have been provided. An appointment to view the information will be arranged within a reasonable timescale.

Information will be provided in the language in which it is held or in such other language that is legally required. Where we are legally required to translate any information, we will do so.

Obligations under disability and discrimination legislation and any other legislation to provide information in other forms and formats will be adhered to when providing information in accordance with this scheme.

Written Requests

Information that is not published under the scheme, but which is held by the Town Council, can also be requested in writing when its supply will be considered in accordance with the provisions of the Freedom of Information Act.

Charges

Whilst the purpose of this scheme is to make the maximum amount of information readily available to the public at minimum inconvenience and cost, the Town Council may charge for providing copies of some of the information to cover expenses such as photocopying or postage and packing. A schedule of the charges that will be levied for providing information is given at the end of this document. If a charge is to be made confirmation of the payment due will be given before the information is provided. Payment may be requested prior to the provision of the information.

Material which is published and accessed on a website will be provided free of charge.

Charges may also be made for information provided under this scheme where they are legally authorised, they are in all the circumstances, including the general principles of the right of access to information held by public authorities, justified and are in accordance with a published schedule or schedules of fees which is readily available to the public.

Charges may also be made for making datasets (or parts of datasets) that are relevant copyright works available for re-use. These charges will be in accordance with the terms of the Re-use of Public Sector Information Regulations 2015, where they apply, or with regulations made under section 11B of the Freedom of Information Act, or with other statutory powers of the public authority.

GUIDE TO INFORMATION AVAILABLE UNDER THE PUBLICATION SCHEME

Information to be published	How the information can be obtained.	Cost
Class1 - Who we are and what we do
